Point of Contacts:

RSupply Supervisor - Lou Borden, 757-443-0332, ourdes.borden1@navy.mil

Team Leader - Susan Bess, 757-443-0331, susan.bess@navy.mil

Requirements Lead - Joseph Melendez, 757-0341, joseph.melendez@navy.mil

Transactions being Migrated

Background:

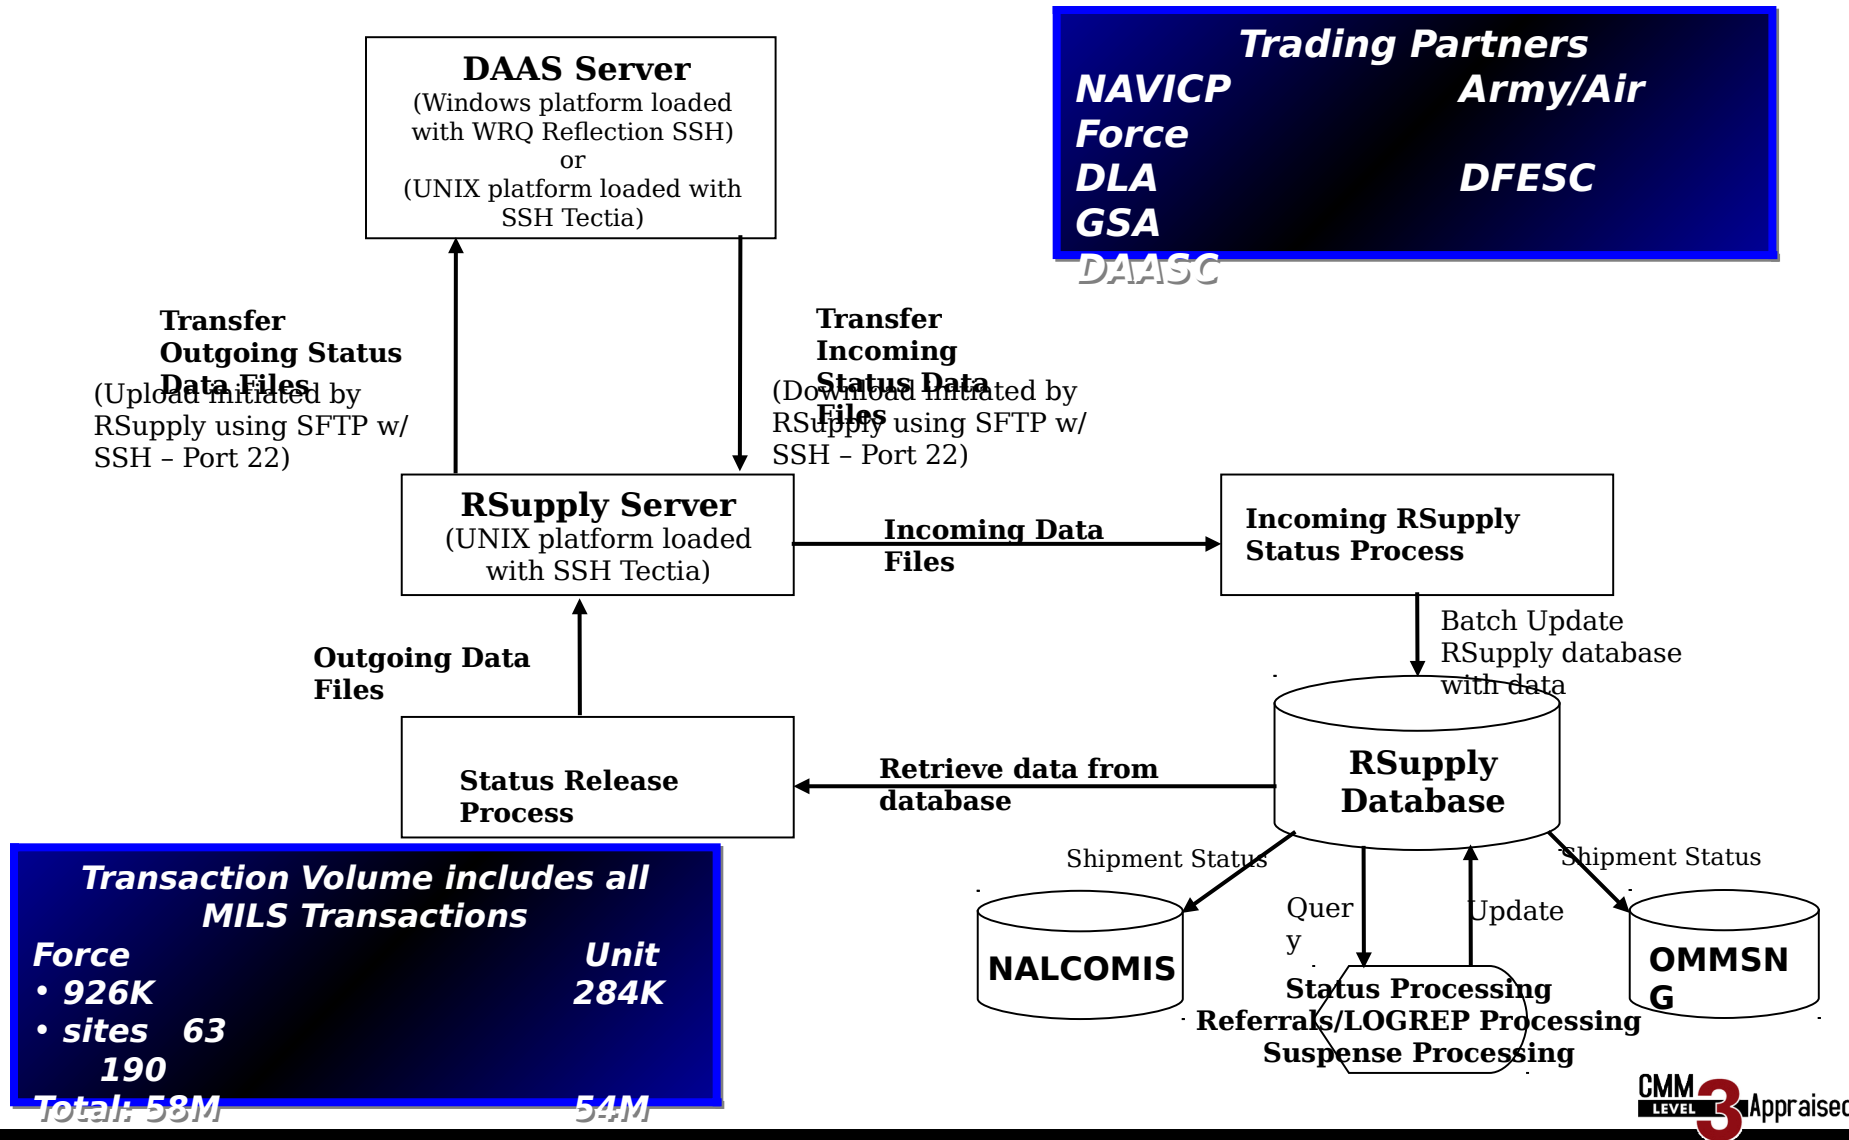

- MILS transaction sets are expected to be migrated to DLMS in accordance with DoD Directive 8180.1 “DoD Logistics Use of Electronic Data Interchange (EDI) Standards”, as supplemented by USD (AT&L) memorandum dated 22 December 2003 (Migration to the Defense Logistics Standards).

Objectives:

- Migration of MILS DOC-ID AS and AU to DLMS 856S.
- Accept, Process, and Output XML data from/to DAASC via SALTS.

Implementation into Production

This is being worked by SSCN and PMW150 and has yet to be determined.

Lessons Learned

Our process is to conduct a Project Retrospective (includes lessons learned) after the Release Readiness Review (RRR) which is scheduled for 30 Apr 08. The results of the Project Retrospective will be forwarded after that meeting has been conducted.
